ABOUT

WITCHED

Witched is a visual experiment by Vanille Abdelnour, member of Twistudio duo, using A.I to generate images of dangerous women and imaginary flora. The modern witch is depicted here as liberated women, nonbinary individuals, hooded figures, women boldly embracing aesthetics traditionally associated with masculinity. You will also find here pictures of imaginary vegetation – vividly colored or sharply contoured, giving an impression of carnivorous or poisonous qualities to match the witches' vibes.

IMAGES MIGHT BE AVAILABLE FOR NON COMMERCIAL USE SOON. IF YOU THINK THIS IS A GREAT IDEA [HYPE ME UP ON INSTA!](#) STAY TUNED 4 MY WEEKLY UPDATES.
